EDUCATION

DigiPen Institute of Technology | 9931 Willows Rd NE, Redmond, WA 98052 USA

B.S. in Computer Science | GPA: TDB

May 2026

Relevant Courses:

Computer Graphics
Data Structures
Game Implementation Techniques
Operating Systems
Linear Algebra
Physics

TECHNICAL SKILLS

Programming Languages: C++

Engines: OpenGL 4.6, Visual Studio 2022, Visual Studio Code

Interpersonal Skills:

Solution-Oriented
Adaptable
Team Communication
Problem Solving
Project Coordination

WORK EXPERIENCE

DigiPen Team Project | Producer | Korea

2026 - Present

- Managed team schedules and coordinated communication between team members during development
- Organized project structure, milestone planning, and gameplay documentation for a 2D action roguelike game
- Conducted playtesting sessions and collected gameplay feedback to improve player experience
- Collaborated with programmers and artists to maintain consistent project direction

PROJECTS

Prototype | Producer / Gameplay Programmer

2026 - Present

- 2D Action Roguelike game focused on fast-paced combat mechanics
- Collaborated with a team of 4 members to design and develop combat systems and gameplay flow
- Designed core mechanics including parry, dodge, and slow-motion combat systems
- Assisted with gameplay implementation and debugging using C++ and OpenGL-based systems
- Participated in iterative playtesting and balancing processes

LEADERSHIP EXPERIENCE

DigiPen Team Project | Producer | Korea

- Led communication and project coordination for team-based game development projects
- Organized project milestones and delegated tasks across multiple development areas
- Managed playtest feedback and documented gameplay improvements for future iterations
- Supported collaboration between programming, QA, and art roles
